

# Why Does It Rain

Sarah Connor

Summertime has come and gone  
I had you here by my side  
The autumn wind was blowing strong  
I grabbed your arm, held you tight

bridge  
Now the air is getting cold at night  
And you say you have to leave  
On the weather report there is  
No Christmas in white  
But it's you and the snow that I need

chorus  
Why does it rain on Christmas?  
When I'm wishing for some snow  
Why can't you stay, if you'll miss me?  
Do you really have to go?

I know when Santa Claus is coming  
He will give me something  
But all I need is you and the snow

Why does it rain on Christmas?  
I don't know

verse 2  
Everyone is having fun  
But I just can't realize  
How can this life go on and on  
Without you here by my side
