

I'm Here

Sarah Cothran

How are you?
There's a lot been on my mind
But if I'm honest
The only one that's bothering
Me is you
I know you've been through some rough times
I hope you're living and not just coping

I had a dream about you last night
Like we went back in time
Before our lives got in the way

And I cannot help but wonder
If I never moved here
I'd be the one wearing your ring

I just hope you're happy
I really hope you're well
You talking to your family?
I know that didn't end the best
But I just hope you're happy
It hurts I can't have you
I know there's someone else
Too many years
I doubt you care
But I'm just saying that I'm here
I'm here

I miss our laughs
Still tryna find someone that makes me feel like you made me feel, no luck
But we were far from perfect
Left us hurtin', things we shouldn't have said
But still I've tried to reason
Can't believe it
I'm still thinking that I
Cannot help but wonder
If I never moved here
I'd be the one wearing your ring
But I'm not

I hope you're happy
I really hope you're well
You talking to your family?
I know that didn't end the best
But I just hope you're happy
It hurts I can't have you
I know there's someone else
Too many years
I doubt you care
But I'm just saying that I'm here
But I don't think you feel what I feel
