

# Karma

Sarah Cothran

Last time I saw your face  
You promised we would work this out  
Before I walked away  
You fed me lies everyday just about

Turn it off turn it off always in my ear tryna talk yourself up  
and  
Come on come on did you really think I'd fall for that one, yeah  
h  
Get up get up it's been a month now can you please back off  
I guess you were thinking I'd be missing

You you never been so wrong  
I'm better than I've ever been yeah  
You you know the pain comes back along  
Gotta pay the dues you put me through  
Cause karma's not a let down like you

The end that's overdue  
Took my composure as a sign of weakness  
It starts and ends with you  
Another round that leaves you life in pieces

Turn it off turn it off always in my ear tryna talk yourself up  
and  
Come on come on did you really think I'd fall for that one yeah  
Get up get up It's been a month now can you please back off  
I guess you were thinking I'd be missing

You you never been so wrong  
I'm better than I've ever been yeah  
You you when the pain comes back along  
Gotta pay the dues you put me through  
Cause karma's not a let down like you

My time spent wasting years  
And fighting tears for you  
This time I don't care
