

Lead Me On

Sarah Cothran

You told me once you couldn't see a world without me in it
But now I think your world has lost the axis and stopped spinning
We're not like we were before, and I'm scared to admit it
So, hold me, while I'm holding on for just a few more minutes

Maybe, it's not fair
But I don't really care
I think you know it too
I feel it in the room

So, stay before you go
And when you do, would you go slow?

If you're gonna tease me
If you're gonna leave me
You might as well lead me on a little longer
If it's gonna hurt when
You walk out the door, then
You might as well lead me on a little longer

Won't you lie, lie, lie?
Kill the time, time, time
Make it feel like we'll never say goodbye
If you're gonna tease me
If you're gonna leave me
You might as well lead me on
Lead me on

'Cause I know two things can be true
You love me while I'm losing you
I wanna say it's all your fault
So, I just let you make the call

So, stay before you go
And when you do, would you go slow?

If you're gonna tease me
If you're gonna leave me
You might as well lead me on a little longer
If it's gonna hurt when
You walk out the door, then
You might as well lead me on a little longer

Won't you lie, lie, lie?
Kill the time, time, time
Make it feel like we'll never say goodbye
If you're gonna tease me
If you're gonna leave me
You might as well lead me on
Lead me on a little longer

A little longer
A little longer
A little longer
