

Sway

Sarah Cothran

I can't decide what to do
I toss and turn over you
But truth is I'm lying, so I'll keep on trying
To pretend you're the last thing I need
'Cause you do the same things to me
But truth is we're lying, we can't keep denying
But I can't decide what to do

Say that you want me
Say you don't need me
I guess it's better that way
Why do I
Say that I want you
Say I don't need you
That's just the game that we play
Why do we sway?
Why do we sway?

I don't like this pain in my chest
But with or without I'm a wreck
I'd like you to stay if that's what I mean
But I hate when my heart's on my sleeve

Say that you want me
Say you don't need me
I guess it's better that way
Why do I
Say that I want you
Say I don't need you
That's just the game that we play
Why do we sway?
Why do we sway?
Why do we sway?
