

Divide

Sarah Darling

You and I drifted like snow
Fell in love on mountain tops and
Melted into rivers rushing down
It got rocky, moving fast
We've been lucky
But if were gonna last

You go your way
And I'll go mine
Baby, let's take our time
You go your way
And I'll go mine
One day we'll conquer
But for now
We must divide

You and I
Losing touch
Missing all the beauty
For the ocean underneath us
Drags you down
Pulls you sideways
Pulls you round
Trading in the future
For right now

You go your way
And I'll go mine

Baby, let's take our time
You go your way
And I'll go mine
One day we'll conquer
But for now
We must divide

Go our separate ways
And take The Road less traveled by
Find the light on the horizon
While the sunsets on the moon
The wrong way to the ocean
Is the right way back to where we found
That rough turns into smooth
So let it bring me back to you

You go your way
And I'll go mine
Baby, let's take our time
You go your way
And I'll go mine
One day we'll conquer
But for now
We must divide
...
