

# Hungover

Sarah Darling

Cup full 'cause I'm feeling pretty hollow  
Love-drunk at the bottom of your bottle  
Last night you said you'd be gone tomorrow  
Hard pills, they're the ones you never swallow  
I guess we're out of time  
Can't get you outta my mind  
My mouth might say "I'm fine", but

I wish we were closer  
I need some closure  
I know it's over, over, over  
And I might be sober  
But I've lost my composure  
'Cause I'm still hungover, over, over

Hungover you, over you  
I'm still hungover, over, over  
Hungover you, over you  
I'm still hungover, over, over  
Hungover  
Heartbreak's got me sipping from a solo  
Cloud nine, broke and left me laying so low  
All of the time we spent  
It takes time to forget  
Times two for you, I'm missing, right now

I wish we were closer  
I need some closure  
I know it's over, over, over  
And I might be sober  
But I've lost composure  
'Cause I'm still hungover, over, over

Hungover you, over you  
I'm still hungover, over, over  
Hungover you, over you  
I'm still hungover, over, over  
Hungover you  
Over you

I wish we were closer  
I need some closure  
I'm still hungover  
Hungover you, over you  
I'm still hungover, over, over  
Hungover you, over you  
I'm still hungover, over, over  
Hungover

Love-drunk, last night, hard pills  
Oh, I'm still hungover you  
Hungover, hungover, hungover you

Cup full 'cause I'm feeling pretty hollow  
Love-drunk at the bottom of your bottle
