

# Pretender

Sarah Darling

California's in the rearview now  
Packed my bags up, yeah, I'm leaving town  
You said summer would stay and you had a way  
Of making me believe every word you say

Baby, I can still remember  
Chasing those sunsets together  
Yeah, you said we would last forever  
Baby, you're my favorite pretender

Yeah, maybe I should've known better  
You'd change your mind just like the weather  
But you said that you would love me forever  
Baby, you're my favorite pretender

Yeah, you're good, you're so good  
You're my favorite pretender  
Yeah, you're good, you're so good

Said that la was made for me and you  
Looking back now I can see right through  
Guess I was young and a little naive  
You might've been lying but it was real to me

Baby, I can still remember  
Chasing those sunsets together  
Yeah, you said we would last forever  
Baby, you're my favorite pretender

Yeah, you're good, you're so good  
You're my favorite pretender  
Yeah, you're good, you're so good

Baby, I can still remember  
Chasing those sunsets together  
Yeah, you said we would last forever  
Baby, you're my favorite pretender

Yeah, baby, I should've known better  
You'd change your mind just like the weather  
But you said we would last forever  
Baby, you're my favorite pretender

Yeah, you're good, you're so good  
You're my favorite pretender  
Yeah, you're good, you're so good

Yeah, baby, I should've know better  
We would last forever
