

Red Mustang

Sarah Darling

Took our time
Driving down to Malibu
Couldn't take my eyes off you
Mmmmm
We called it love
Said it and I wasn't scared
Hanging in the salty air
Mmmmm

Top down
Candy Apple classic
Me in your denim jacket
Leather seats teenage dreams
And all that kind of magic

Two of us on the 101
Taste of freedom in the setting sun
In my mind it's still always
You and me in a red mustang
Soundtrack of a Summer love
California when I turn it up
And the image of the song that plays
You and me in a red mustang

Faster now
Pedal down to the floor
I still see you driving
Pulling me closer
Doing laps
Up and down the highway
Over and over

Two of us on the 101
Taste of freedom in the setting sun
In my mind it's still always
You and me in a red mustang
Soundtrack of a Summer love
California when I turn it up
And the image of the song that plays
You and me in a red mustang
