

Mercury

Sarah Fimm

Mercury
I see visions of galaxies
Where you are is where I'll be someday.

And you puzzle me
Am I made of you?
Are you made of me?
Cause I'm so confused
Mercury.

How you gaze into me
With your vast display of constancy
You enchant me, mercury.

I have found something in your eyes
That you have found in mine, mercury
We don't have time, mercury.

Everyone has their day
But I pray
Our worlds collide
And form strength tonight
Mercury.

Mercury
I see visions of galaxies
Where you are is where I'll be someday.
Just another piece of history
From far away.
