

In Your Hands

Sarah Geronimo

Anywhere
I see them everywhere
And I wanna close my eyes
Just to ease the pain
But after all
Atill I can hear them call
Begging for a little love
The greatest gift of all

'Cause in your hands, in your hands
Lies the future of our children
And in your hands, in your hands
Lies the future of the world
We are one, all together
Make this world a place like heaven
And in your hands, in our hands
Lies the future of the world

And don't you even dare
To show them that you can't
Hands that reach their very soul
This is where they belong
Show them love
It's time to make a start
For our children the sweetest angels
Waiting to be found

In your hands, in your hands
Lies the future of our children
In your hands, in your hands
Lies the future of the world
We are one, all together
Make this world a place like heaven
In your hands, in your hands
Lies the future of the world

In your hands, in your hands
Lies the future of our children
In your hands, in your hands
Lies the future of the world
We are one, all together
Make this world a place like heaven
In your hands, in your hands
Lies the future of the world

In your hands, in your hands
Lies the future of our children
In your hands, in your hands
Lies the future of the world
We are one, all together
Make this world a place like heaven
In your hands, in your hands

In your hands, in your hands
Lies the future of the children
In your hands, in your hands
Lies the future of the world
