

Last Night of Our Lives

Sarah Geronimo

I wanna live
Like it's the last night of our lives
(Cuz there might not be tomorrow)
Live
Like it's the last night of our lives
(Cuz there might not be tomorrow)

So just let go
You never know
Cuz there might not be tomorrow
It's the last night of our lives

Thank the world that we got tonight
Moons right and the stars align
Never ever seen such a perfect night
It's way too good for it to be the last night
Everybody says that the world might end
And we might never get the chance again
If we miss the shot we'll be devastated
So maybe we shouldn't think about going to bed

All we need is a bottle
Two glasses and the lights down low
Tonight you and me is all I know
Cuz there might not be a tomorrow
And ever if we're going to a better place
Let's enjoy the night just in case
So relax your mind, undress and forget the time
And live like it's the last night of our lives

I wanna live
Like it's the last night of our lives
(Cuz there might not be tomorrow)
Live
Like it's the last night of our lives
(Cuz there might not be tomorrow)

So just let go
You never know
Cuz there might not be tomorrow
It's the last night of our lives

Now I'm not saying that I'm psychic
But I really don't think that we should risk it
If we never get a taste of it it'd be tragic
We only got one life so let's live it

The world might not end, but what if it does?
We'll never get to know how we'd feel in love
I really like to know how we'd feel in love
So let's go see how it feels for us

All we need is a bottle
Two glasses and the lights down low
Tonight you and me is all I know
Cuz there might not be a tomorrow
And ever if we're going to a better place

Let's enjoy the night just in case
So relax your mind, undress and forget the time
And live like it's the last night of our lives

I wanna live
Like it's the last night of our lives
(Cuz there might not be tomorrow)
Live
Like it's the last night of our lives
(Cuz there might not be tomorrow)

So just let go
You never know
Cuz there might not be tomorrow
It's the last night of our lives

All we need is a bottle
Two glasses and the lights down low
Tonight you and me is all I know
Cuz there might not be a tomorrow
And ever if we're going to a better place
Let's enjoy the night just in case
So relax your mind, undress and forget the time
And live like it's the last night of our lives.
I wanna live
Like it's the last night of our lives
(Cuz there might not be tomorrow)
Live
Like it's the last night of our lives
(Cuz there might not be tomorrow)
So just let go
Yeah you never know
Cuz there might not be tomorrow
It's the last night of our lives
