

More Than You'd Believe

Sarah Geronimo

I just can't imagine life without you
Not a day without you by my side
Everytime I'm down I think about you
Then I'd smile cause you fill me with your love

Know that I alone would never make it
Only you can have this heart so take it
Just for you, my love I'll always give
As long as I would have this life to live
I would always love you more than you'd believe

When I'm down you always come around
I'm so glad to know it's love I found
All my life I'd spend with only you
I would give you my love that is so true

Know that I alone would never make it
Only you can have this heart so take it
Just for you, my love I'll always give
As long as I would have this life to live
I would always love you more than you'd believe

When you are away
I pray for you each day
I send you thoughts of love each every minute
If I had to choose
To live my life again
It would still be the same

Know that I alone would never make it
Only you can have this heart so take it
Just for you, my love I'll always give
As long as I would have this life to live
I would always love you more than you'd believe

For as long as I would have this life to live
I would always love you more than you'd believe
