

## Until Forever

Sarah Geronimo

Is this the beginning  
Of a love I've waited for  
And I hardly can't imagine  
If one day you let me go  
'Cause it's you I'm always dreaming of  
And I'm glad you came along  
I just can't explain that feeling  
When you say you love me more

From this day I will remember  
How you opened up my heart  
And I'll treasure every moment  
I will never make you cry  
For this love will last a lifetime  
I can see it in your eyes  
From this day until forever  
I will never say goodbye

I am ready for tomorrow  
And I'm not afraid of time  
'Cause with you there is no sorrow  
Yes and you profound my home

From this day I will remember  
How you opened up my heart  
And I'll treasure every moment  
I will never make you cry  
For this love will last a lifetime  
I can see it in your eyes  
From this day until forever  
I will never say goodbye

How you taught me to be strong  
How you changed my life and all  
How you made me feel I'm not alone

For this love will last a lifetime  
I can see it in your eyes  
From this day until forever  
I will never say goodbye

From this day until forever  
I will never say goodbye
