

Captive

Sarah Harmer

I wanna be held captive Oh-oho-oho
Forget the way I acted Oh-oho
It's just I'm out of practice Oho-oh-oh
And d-distracted
Hold me to this thing, da-arling
Aand bring a light that'll climb through the rafters
As long as there's a view
to look to
fence me in and keep me close
to you
I wandered for a long time oho-oho
I forgot my light
And you threw me a life line oho-oh-oh
Pulled me out of the dark night
Hold me to this thing, da-arling
And bring a light that'll climb through the rafters
As long as there's a view
to look to
fence me in and keep me close
to you-ooo
There will always be a weapon
Look how far the light is casting
In the soft and steady you can see
glowing with the feeling
this feeling
I wanna be held captive oh-oh-oh-oh
look at the way I acted oho-oh-oh
I'm just so out of practice oho-oh-oh
And d-distracted
Hold me to this thing, da-arling
And bring a light that'll climb through the rafters
As long as there's a view
to look to
fence me in and keep me
Hold me to this thing, da-arling
A bring a light that'll climb through the rafters
As long as there's a view
to look to
fence me in and keep me close
fence me in and keep me close
to you
