

I Can Feel It

Sarah Kinsley

I think maybe this time you should remember my name
Before it gets too loud, write it down
I'm in the big house, yeah I got the big house now
Baby, won't you stick around?

I thank God that my mother made me
Stubborn and stone, knowing nothing could save me
I got the big house, I still play for an empty crowd now

The best part of me is, the best part of me is you
The best part of me is, the best part of me is you
I can feel it, don't you feel it too?
The best part of me is, the best part of me is you
I can feel, don't you feel it?

I can feel it coming through the ceiling
You're all mine
I'm so sick and tired of dreaming
Get my things I'm leaving
I can feel it this time
You're all mine
I can feel it this time
(You're all mine)

It should be a couple of years 'til they find me
Starving myself in the hotel lobby
I want that big house
I still want that big house now
I really thought I'd make it out

I thank God for the girls who saved me
They call me up once a week to say I'm crazy
I want that big house, I still play for an empty crowd now

The best part of me is, the best part of me is you
The best part of me is, the best part of me is you
I can feel it, don't you feel it too?
The best part of me is, the best part of me is you
I can feel, don't you feel it?

I can feel it coming through the ceiling
You're all mine
I'm so sick and tired of dreaming
Get my things I'm leaving
I can feel it this time
You're all mine
I can feel it this time
(You're all mine)

I can feel it coming through the ceiling (ceiling)
You're all mine
I can feel it this time
