

Sliver Of Time

Sarah Kinsley

For a sliver of time
I thought I had everything right
Disillusioned
Assuming
Love was the answer
The center I give myself up to obtain

So love isn't always the way
But I will still take your lips any day
Chase you until
The drifting begins
And we fall and we crawl back
To loving ourselves again

Maybe it is what it is
Maybe love cannot save us from it
But for one night and one night only
You can say you knew me
You held me like this

Maybe we lose our grip
Maybe the feeling disappears in it
But for one night and one night only
You can say you knew me
You held me like this

You held me like this
You held me like this
You held me like this
You held me like this
