

## Between The Lines

Sarah Klang

Between the lines  
Wish you could see me between the lines  
Hidden in the skies  
Wish you could see me in the eyes  
We've been friends for a long time now  
You know me so well  
Been through heartbreaks and funerals  
We've been through heaven and hell

Do you ever think about me  
More than just a friend  
Could we have been together if I didn't love him

Between the lines  
Wish you could read me between the lines  
Underneath the lies  
Wish you could see me in the eyes  
I always tried to get to you  
But you were too far away  
Tried to make you understand  
But it was all in vain

Do you ever think about me  
More than just a friend  
Could we have been together if I didn't love him

More than just a friend  
More than just a friend  
More than just a friend  
More than just a friend  
More than just a friend  
More than just a friend  
More than just a friend  
More than just a friend
