

Left Me On Fire

Sarah Klang

Always, always search for the light
Even in the darkest night
Oh I follow the drums and the bass
Cause it makes me feel alive

I Call out your name
I Follow the trails
I Can feel it deep inside
The heartbeats, the sounds

Did you know you left me on fire?
Did you know you left me on fire?
Did you know you left me on fire?
Did you know you left me on fire?

Someday, someday I will be free
But I wonder, do you still think of me?
Do you remember when our love was true?
Do you remember when it was me and you?

Oh I, Oh I dream of you when I close my eyes
Oh I, Oh I dream of you when I close my eyes

Did you know you left me on fire?
Did you know you left me on fire?
Did you know you left me on fire?
Did you know you left me on fire?
