

When You Walk

Sarah Klang

When you smile
When you sit up in silence in the morning light
When you talk to your friends I get all emotional

I Don't want you to know how sad I can get
When I'm on my own and you are far away

I Love you, babe
Oh I Love you, babe
I Love you, babe
Oh I Love you, babe

When you walk next to me I feel so happy
Could we stay?
Could we stay here forever?

I Don't want you to know how sad I can get
When I'm on my own and you are far away
I Don't want you to know how sad I can get
When I'm on my own and you are far away

I Wanna be your girl
I Love you, babe
I Wanna be your girl
I Love you, babe
I Wanna be your girl
I Love you, babe
