

## Wintersong

Sarah McLachlan

The lake is frozen over  
The trees are white with snow  
And all around  
Reminders of you  
Are everywhere I go

It's late and morning's in no hurry  
But sleep won't set me free  
I lie awake and try to recall  
How your body felt beside me  
When silence gets too hard to handle  
And the night too long

And this is how I see you  
In the snow on Christmas morning  
Love and happiness surround you  
As you throw your arms up to the sky  
I keep this moment by and by

Oh I miss you now, my love  
Merry Christmas, merry Christmas,  
Merry Christmas, my love

Sense of joy fills the air  
And I daydream and I stare  
Up at the tree and I see  
Your star up there

And this is how I see you  
In the snow on Christmas morning  
Love and happiness surround you  
As you throw your arms up to the sky  
I keep this moment by and by
