

# Something About You

Sarah Reeves

So obscure  
You don't always come through that open door  
Not in the things I usually look for  
My mystery got me intrigued

Fascinated, captivated  
I'm amazed by all that You are, oh  
Uncontrollable emotion  
All Your love exposing my heart

Yeah, there's just something about You  
I'm better when I'm around You  
Can't get enough of the way You light up every room  
You got me singing and shouting  
I can't stop thinking about it  
I wish I could explain the way that You do what You do  
Yeah, there's just something about You

Your gentle voice  
I hear You break in through the loudest noise  
It's ringing through me filling every void  
I overflow, one thing I know

Fascinated, captivated  
I'm amazed by all that You are, oh  
Uncontrollable emotion  
All Your love exposing my heart

Yeah, there's just something about You  
I'm better when I'm around You  
Can't get enough of the way You light up every room  
You got me singing and shouting  
I can't stop thinking about it  
I wish I could explain the way that You do what You do

There's just something about You, oh  
There's just something about You, woah  
There's just something about You, oh  
There's just something about You, woah

When I'm with You  
Every single day is brand new  
When I'm with You  
Every single day is brand new

Yeah, there's just something about You  
I'm better when I'm around You  
Can't get enough of the way You light up every room

Yeah, there's just something about You  
I'm better when I'm around You  
Can't get enough of the way You light up every room  
You got me singing and shouting  
I can't stop thinking about it  
I wish I could explain the way that You do what You do

There's just something about You, oh

There's just something about You, woah  
There's just something about You, oh  
There's just something about You, woah
