

Detour Ahead

Sarah Vaughan

Smooth road clear day
But why am I the only one
Traveling' this way
How strange the road you love
Can be so easy
Can there be a detour ahead

Wake up slow down
Before you crash and brake your heart
Gullible clown
You fool, you're heading
In the wrong direction
Can't you see the detour ahead

The further you travel
The harder to unravel
The way he spins around you
Turn back while there is time
Can't you see the danger sign
Soft shoulders surround you

Smooth road clear night
Oh lucky me that suddenly
I saw the light
I'm turning back away
From all that trouble

Smooth road, smooth road
No detour ahead
