

## I'll Close My Eyes

Sarah Vaughan

I'll close my eyes  
To everyone but you  
And when I do  
I'll see you standing there

I'll lock my heart  
To any other caress  
I'll never say yes  
To a new love affair

I'll close my eyes  
To everything that's gay  
If you're not there  
To share each lovely day

And through the years  
Those moments when we're apart  
I'll close my eyes  
And see you with my heart

I'll close my eyes  
To everything that's gay  
If you're not there  
To share each lovely day

And through the years  
Those moments when we're apart  
I'll close my eyes  
And see you with my heart
