

## Once You've Been in Love

Sarah Vaughan

Once You've Been in Love  
Once you awake in someone's arms  
Once you have shared the dawn  
Once you have glimpsed the face of love that flows, the space of  
love, you're someone else forever  
Once you have dreamed in someone's arms  
How can you dream alone?  
Once you have known the joys of time, the smiles of time  
Can you walk alone across the miles of time?  
After you've heard the 'song of songs'  
What other song will do?  
After your eyes are dazzled by the summer sunlight - oh how long  
before they grow accustomed to the dark of winter?  
Once I belonged in someone's arms  
I never felt the cold  
And once I believed in someone's arms  
That they would always hold me  
Once I was sure how real it was  
Now I try to pretend it never was  
Long to forget it ever was  
But with so many memories where do you begin?  
Once you've been in love
