

## A Spell to Awaken the Temple

Sargeist

Bathing in moonlight  
I shiver and I tremble  
Captured by the spell  
Awakening this temple  
My eyes turn to white  
And breathing is broken  
Dark powers taking vessel  
Of my human token

As clouds are veiling  
The moon of first frost  
I gather my senses  
Regaining what was lost  
The pact I had made  
Is signed and concealed  
My soul is now branded  
My true face revealed

To you our Father  
I renew my black oath  
Christ and his sheep  
I curse and I loath  
My black devotion  
Your Jesus i despise  
With this sign I announce  
His utter demise
