You don't say nothin'  
You expect me to think for you  
It's a merry go, round around we go  
I need to feel you

I showed you love and I showed you respect  
Me gye wo number from the jump and you told me to text  
Past relationship, you said you were so in a mess  
But I said you ain't gotta rush it, I told you to rest  
It's been couple months now you still ain't open up  
I know you love it babe but you don't show enough  
The chemistry between us got me creeping up on you  
Enye saa na me tie but I guess I'm so in love I'm holding up

You expect me to think for you  
It's a merry go, round around we go  
I need to feel your firework  
Play your firework  
I believe in fireworks  
Bring the firework  
I wanna be the way for you but  
Don't make me stay too late for you  
Appreciate all the things we do  
But tell me what you really want to do

I wanna be the way for you but  
Don't make me stay too late for you  
Appreciate all the things we do
