Please don't stay in the freeze today
Come and hold me, baby, you'll feel okay
It feels like I'm giving my keys away, yeah
I've been ocean and seas away
I've been waiting for this moment, it's here today
And you left me outside, it's freezing cold
Now you're back, I got a couple of things to say
Baby girl, you know I miss how we use to play
When you leave it dey pain me like tooth decay
I got dues to pay
And you used to say
That you stole my heart and I can't complain

When I see you next door (Door, door, door, door)
Right next to me it feels relief
And when the time gets rough
I want make you come be my reliever
