

TRAUMA

Sarkodie

Smiles on the outside, but deep down we dey go to trauma
How to be a man no be walk in the park we dey face more drama
You go like browse
You go like steal
But you no dey want no karma
And as a man we no dey fit cry
'Cause you gotta stay strong for your mama
A lot of niggas die young
'Cause one man no fit handle all the pressure
We dey keep it inside?
So it builds up and then we go end up on a stretcher
Boys no dey talk much but deep down if you really wanna talk sometimes the road be scary
It looks so dark but you still gotta walk

If you got a man oko krom na oba fie aa, just give him a hug
'Cause the fight that a nigga gotta fight wey the street too de show no love
This for my brothers wey de go through shit
I de pray that you make it
Anopa biaa you for go street to pick a few moves even if you hate it

It's always drama, drama, drama all my life
This shit got me traumatized
I'm tryna be a man 'til it's all alright
Thinking 'bout this shit, I cry

It's always drama, drama, drama all my life
This shit got me traumatized
I'm tryna be a man 'til it's all alright
Thinking 'bout this shit, I cry

A man gotta man up
Even when it hurts you men don't cry
And it's really kind of messed-up
But they gon' judge, if a man don't try
So, you go through life every day
Tryna make it all good for your family
And nobody really care what you gotta go through
But you for pay for the price
Life is a war but a man can't speak
Live for the poor and strive for the weak
Sick to the core, but the kids gotta eat
Pray to the Lord my soul to keep

Life of a man is a constant race. Keep going, don't stop
And no matter what go happen
Whether good or bad, good or bad, shh! Don't talk

If you got a man oko krom na oba fie aa, just give him a hug
'Cause the fight that a nigga gotta fight wey the street too de show no love
This for my brothers wey de go through shit
I de pray that you make it
Anopa biaa you for go street to pick a few moves even if you hate it
Even if you hate it

You want this cheddar
You can't escape it

Wanna do better
You don't wanna fake it
No
Everybody really wanna make it
I been a go-getter
Wanna headline Coachella
But I'm going through hell of pain
Spinning back whenever

It's always drama, drama, drama all my life
This shit got me traumatized
I'm tryna be a man 'til it's all alright
Thinking 'bout this shit, i
