

Rainbow

Sash!

Rainbow up high, I look to the sky
Play me your song and I start to cry
Up to the sun and over the sky
Forget all your troubles and kiss them goodbye
I need your love like a rainbow above
Come be my friend, to the rainbow's ends

Rainbow up high, I look to the sky
Play me your song and I start to cry
Up to the sun and over the sky
Forget all your troubles and kiss them goodbye
I need your love like a rainbow above
Come be my friend, to the rainbow's ends

Rainbow up high, I look to the sky
Play me your song and I start to cry
Up to the sun and over the sky
Forget all your troubles and kiss them goodbye
I need your love like a rainbow above
Come be my friend, to the rainbow's ends
