

Rock My Body

Sash!

Baby
I need you till the morning
I hear my body calling
So keep that party rocking all night
Baby
Oh we can skip the talking
You know there's only one thing tonight
So won't you come rock my body

Baby
I need you till the morning
I hear my body calling
So keep that party rocking all night
Baby
Oh we can skip the talking
You know there's only one thing tonight
So won't you come rock my body

Coming in coming in so so hot
Loving it loving it no non stop
Another round round
We double down down
Bittersweet, bittersweet, one more shot
Let me see, let me see, what you got
I want it right now
Yeah

Baby I want you
So won't you come rock my body
Body body
Won't you come rock my body

Baby
I need you till the morning
I hear my body calling
So keep that party rocking all night
Baby
Oh we can skip the talking
You know there's only one thing tonight
So won't you come rock my body

It's in the air
Just breathe it in
Another rush
It's kicking in
Under the lights I feel you near
I want you close, I want you here
It's in the air, it's in the air

Baby
I need you till the morning
I hear my body calling
So keep that party rocking all night
Baby
Oh we can skip the talking
You know there's only one thing tonight
So won't you come rock my body

Baby
I need you till the morning
I hear my body calling
So keep that party rocking all night
Baby
Oh we can skip the talking
You know there's only one thing tonight
So won't you come rock my body

Won't you come rock my body
Won't you come rock my body
