

# AUCTION

**Sasha Keable**

Never knew that you made me sad girl  
You're the best I ever had girl  
Got me waiting by my phone until I see a text  
Everyday it seems to happen less and less  
Even though I think you're my downfall  
I'ma still pick up this phone call  
'Cause my gut still tells me that you ain't like the rest  
And I'm still getting flashbacks of us both undressed

So don't  
Don't let me down  
I know I'm trouble  
Know your way around  
So just stay around  
I need  
Need us both laid up  
We ain't no strangers  
Oh just show me  
Oh just show me

How you freak me, please me, tease me, show me  
How you treat these other bitches that you got, huh  
Fuck me till you can't fuck me no more  
Then we gon' switch and I'ma get on top, yeah uh  
Like me when I'm wet, I don't need you for sex  
But tonight you my best option  
Put that money where your mouth is  
Make sure you the highest bidder in my auction, yeah

Never knew that you made me sad boy  
But you know I got it bad boy  
Got me waiting by the phone to get a call or text from you  
Know what's next from you  
I know it's hard (hard)  
But don't let me fall, down down  
I'm getting flashbacks from the night when we both undressed  
Then we had sex, I don't mean to make it complex  
Tell you how I feel then you vexed  
I need you to say it with your chest, boy  
I don't give a fuck how you get here  
Long as you leave the bullshit at the door  
Drawers on the floor, pass me the smoke  
Hit it two times then you choke  
You could let me down, baby don't, don't

Don't  
Don't let me down  
I know I'm trouble  
Know your way around  
So just stay around  
I need  
Need us both laid up  
We ain't no strangers  
Oh just show me  
Oh just show me

How you freak me, please me, tease me, show me

How you treat these other bitches that you got, huh  
Fuck me till you can't fuck me no more  
Then we gon' switch and I'ma get on top, yeah uh  
Like me when I'm wet, I don't need you for sex  
But tonight you my best option  
Put that money where your mouth is
