

# Don't Get Lost

Sasha Keable

Persistence is always easy when you're self assured  
But I've never been that  
No, not for one second, no  
Promises made to myself were all in my head  
It kept me in the dark  
With no conversations

But don't you ever leave me here  
I've been fighting for a higher purpose, uh-uh  
And don't you ever run with fear, no, no  
'Cause you'll never see beneath the surface, the surface

And never put all your hopes in hoping  
'Cause the silence will be golden statues in a moment  
Don't get lost, lost, lost, lost, lost  
Don't get lost, lost, lost, lost, lost

I'm stress sleeping, I don't feel like myself at all  
Phone my man to unwind (Phone my man to unwind)  
But he's working, he don't have time (But he don't have the time)  
Scrolling hoping to find the answer to my prayers  
But hun, take it from me (Take it from me), that won't make you happy

But don't you ever leave me here  
I've been fighting for a higher purpose, uh-uh  
And don't you ever run with fear, no, no (Don't you ever run with fear)  
'Cause you'll never see beneath the surface, the surface

And never put all your hopes in hoping  
'Cause the silence will be golden statues in a moment  
Don't get lost, lost, lost, lost, lost  
Don't get lost, lost, lost, lost, lost
