

Lights

Sasha Keable

Lights go down upon our world and you can see
The way I contemplate my every move comes back to me
Something happens as the flashlights burn on my face
Making every hair stand up and slow my pace

Come here, be still
Cause you'll never be like this again, oh no no no no
Stay here, come chill
Cause you'll never be like this, oh no oh no no

Come here, be still
Cause you'll never be like this again, oh no no no no
Stay here, come chill
Cause you'll never be like this, oh no oh no no

All there is between us is space that I can fill
Pull me till your arms shake, be real
Baby, if it feels good, take it and I'll wait for you to be mine
I'll do all I can to make you taste how it feels but it takes time

Come here, be still
Cause you'll never be like this again, oh no no no no
Stay here, come chill
Cause you'll never be like this, oh no oh no no

Come here, be still
Cause you'll never be like this again, oh no no no no
Stay here, come chill
Cause you'll never be like this, oh no oh no no
