

Living Without You

Sasha Keable

One didn't care, words in the air, I was there (I was there)
Trying to find some piece of mind, I was scared (I was scared)

You gave me everything, hope your heart is not too broken baby,
baby
It was a selfish thing, but the outcome's for the better maybe,
maybe

Living without you, the very best I'll ever get
And I hope you feel it too
The point of us I won't understand
I won't understand

Twisted the truth, eyes black and blue, it was time, yeah yeah,
and I don't mind
What you choose to put me through, I'll be fine - I'm always fine

You gave me everything, hope your heart is not too broken baby,
baby
It was a selfish thing, but the outcome's for the better maybe,
maybe

Living without you, the very best I'll ever get
And I hope you feel it too
The point of us I won't understand
I won't understand

Living without you, the very best I'll ever get
And I hope you feel it too
The point of us I won't understand
I won't understand
