

# Opening Arms

Sasha Keable

Glistening in your eyes  
Must have been a good line  
Say the word I'll dim the lights  
So nice to see you babe  
It's just a shame she don't know my name

Opening arms  
I won't wait forever, you should tell her  
Opening arms  
That we're together, you better tell her

I'm chasing Wray by the bar  
So I'll forget by tomorrow  
Maybe I should smoke outside  
Oh, you got cigarettes to share?  
Just a shame you don't see I'm here, I'm here

Opening arms  
I won't wait forever, you should tell her  
Opening arms  
That we're together, you better tell her

You say you spoke about work  
I guess I musta misheard  
What she was saying to her friends  
She had a different plan  
That you'd be leaving alone with them  
With them, with them

Opening arms  
I won't wait forever, you should tell her  
Opening arms  
That we're together, you better tell her  
Opening arms  
I won't wait forever, you should tell her  
Opening arms  
That we're together, you better tell her

Opening arms  
Wait forever  
Opening arms  
We're together
