

# Hurt

Sasha Sloan

Tell me what you wanna do  
I probably want to do it too  
Tell me how you really feel  
Is it real?  
Good for you  
I can't get you off my mind  
I think about you all the time  
Maybe I'm the only one  
Maybe you're just having fun

I probably shouldn't sleep over  
'Cause I know that I'm making it worse  
I freak out every time we get closer  
'Cause I'm scared that it's just gonna hurt  
And now I even like you when I'm sober  
Honestly that's a first  
I freak out every time we get closer  
'Cause I'm scared that it's just gonna hurt

'Cause I'm scared that it's just gonna hurt  
'Cause I'm scared that it's just gonna hurt

I can't get you out my head  
I can't get you out my bed  
Maybe I should walk away  
'Cause I'm afraid, our hearts isolated  
But I couldn't even if I tried  
'Cause you're the only thing that feels right  
And you keep on giving me demise  
You know I'm going, won't stay the night

I probably shouldn't sleep over  
'Cause I know that I'm making it worse  
I freak out every time we get closer  
'Cause I'm scared that it's just gonna hurt  
And now I even like you when I'm sober  
Honestly that's a first  
I freak out every time we get closer  
'Cause I'm scared that it's just gonna hurt

'Cause I'm scared that it's just gonna hurt  
'Cause I'm scared that it's just gonna hurt  
Tell me what you wanna do  
I probably want to do it too  
Tell me how you really feel  
Is it real?  
Good for you

I probably shouldn't sleep over  
'Cause I'm scared that it's just gonna hurt
