

# If It`s Up To Me

Sass Jordan

People say you make the bed you're lying in  
Sliding in between the sheets of life  
Do you intend to let them get you lying down  
Steel yourself in time to face the knife

I will take my fate and make it my alibi

If it's up to me  
If it's up to me

Everyone you know has got an enemy  
Animal or human or a dream  
Success is what we fight like hell just to achieve  
But when it comes you wonder where you've been

I will take my fate and make it my alibi

If it's up to me  
If it's up to me

I can learn to weather the adversity  
I will find a way to win the fight

If it's up to me
