

## Legion Werwolf

### Satanic Warmaster

Satanic warlegions, our sign -the horns of the goat  
Battlefields of blood, the temples ablaze in the dark  
Wolfish songs of fight, desecration and triumph  
Banner of blood and honour,  
the natural way of the strong

Legion Werwolf

Black triumphant hordes, all devouring flame of Satan  
Blood and sweat of combat, the scent of the new dawn  
Old mother-serpent, our spirit from the stars  
The fist of the conqueror, the hammer of our supremacy

Legion Werwolf

The night and the fog  
Blood of the holy gives life  
to the seeds new aeon of Satan  
Open tomb, Violated grave  
Profaned remnants of the christian god killed by  
Legion Werwolf
