

Feel Good

Satin Jackets

Another mistake I can't explain
Another misstep I can't regain
Now I'm reaching for your arms again
To me, baby, you're everything

We take one step up, done with stranded
One step back we're empty handed, but

You make me feel good
You know you do
You make me feel good
Baby it's you

You make me feel good
You know you do
You make me feel good
Baby it's you

I dream that maybe some day
You could be my every day
If we use imagination
Make the love that we've been chasing

We could cross that bridge that we've been building
Find a place to just be still and

You make me feel good
You know you do
You make me feel good
Baby it's you

You make me feel good
You know you do
You make me feel good
Baby it's you

You make me feel good
You know you do
You make me feel good
Baby it's you

You make me feel good
