

Oceanside

Satin Jackets

Feel myself
Another stage
Across the water
Wonder what it takes
To make it out
Its always safe enough to seem like I don't want it
And ways to make me think let's stick around

But that sunlight
Got me open wider then
On this slow night
I wonder when we'll meet again
Its all dreamlike
But I've been wasting time with
Shoulda been
Coulda been
Alright
Just get me oceanside again
Get me oceanside again
Get me oceanside
It shoulda been
Coulda been
Alright
Just get me oceanside again

We got a taste
Of how it be
Without borders
You wonder why we'd ever let it sleep
I'm always lost doing the things I think we oughta
And left wondering what its all about

But that sunlight
Got me up higher then
On these slow nights
I wonder when we'll meet again
Its all dreamlike
But I've been wasting life with
Shoulda been
Woulda been
Our time
Just get me oceanside again
Get me oceanside again
Get me oceanside
It Shoulda been
Woulda been
Our time
Just get me oceanside again

Wanna be somewhere you recognise me
Wanna open up, just let you dive in
Never seen enough to memorise you

Hold enough to bring us back in
Wanna be somewhere you recognise me
Wanna open up, just let you dive in
Never seen enough to memorise what

It shoulda been
Coulda been
Alright
Just get me oceanside where

That sunlight
Got me up higher then
On these slow nights
I wonder when we'll meet again
Its all dreamlike
But I've been wasting life with
Shoulda been
Woulda been
Our time
Just get me oceanside again
Get me oceanside again
Get me oceanside
It shoulda been
Coulda been
Alright
Just get me oceanside again

Wanna be somewhere you recognise me
Wanna open up, just let you dive in
Never seen enough to memorise you
