

So High

Satin Jackets

Let's get out there
I've been dreaming of the coast
And I want it with you
With you

Sail away to the great unknown
Golden days shouldn't be alone
Hold on tight yeah we're going far
Oh so far
So high
So high with you
You get me so high it's true

So high
So high
So high with you
So high with you
So high with you

Floating out there
Never gonna let it fade
Only this high with you
With you

Sail away to the great unknown
Golden days shouldn't be alone
Hold on tight yeah we're going far
Oh so far
So high
So high with you
You got me so high it's true

So high
So high
So high with you
So high with you
So high with you
