Spell

Satin Jackets

Changing my mind
Like it's nothing

Stay with the nights
I'm not learning

Don't recognise
Where we're going

As I fall under your spell
I hold on tight

Fade into lights
I've been dreaming

Wake when it's night
But I'm not leaving

Don't recognise
Where we're going

As I fall under your spell
I hold on tight

All I knows what feels right
I keep on calling up

All I knows what seems like
A dream taking over us

And I didn't wanna wait for real life
When it never leaves enough

As I fall under your spell
I hold on tight

Waving goodbye
The colours gleaming

Moving through time
But we're still beaming

Don't recognise
Where we're going

As I fall under your spell
I hold on tight

I hold steady
Hold on tight
I hold steady
Hold on tight
Things get heavy
But float on by
So hold steady
Hold on tight

All I knows what feels right
I keep on calling up

All I knows what seems like
A dream taking over us

And I didn't wanna wait for real life
When it never leaves enough

As I fall under your spell
I hold on tight
