

## We Can Talk

Satin Jackets

We can talk, we can talk  
Keeping it all close to my heart  
We can love, we can love  
You're the one when we're apart

And so we're here again  
Will this thing never end?  
I'm trying to find my out  
Been trying to find you but all I found is doubt

And doubt is all we have  
Not sure of who laughed last  
And why we're here for sure  
Not looking back, no turning back

We can talk, we can talk  
Keeping it all close to my heart  
We can love, we can love  
You're the one when we're apart

I don't know why you came  
Was it to shift your blame?  
I don't care how that sounds  
Been going round and round but nothing's changed

And nothing's all we found  
We covered all the ground, and for what?  
We had to hear your side  
You put it up, and put out just, tried to hide

We can talk, we can talk  
Keeping it all close to my heart  
We can love, we can love  
You're the one when we're apart

We can talk, we can talk  
Keeping it all close to my heart  
We can love, we can love  
You're the one when we're apart
