Baby girl lost in prostitution

She sell her body cos through struggle that's her one solution

She ain't got no pimp ain't nobody make her do it

Her daddy been gone since she was 9 (?) in the institution

She got two kids and her baby brother suu woopin

He been gettin in lots of trouble she heard about some (shootas  
?)

He done became a nuisance

And her momma ain't even there around it all

She ain't sick dead or in jail she just don't answer calls

From the age of 16 she dropped them on they drawers

Get a job and pay some bills or you can move with Santa Claus

Ain't no weight it ain't no pause threatening you to call the l

Funny how the people that you love will put your life at stop

Funny how the people gave you life but treat you like a dog

But then you wonder why your daughter is a child having child's  
Youngsters smoking weed but that's the only time they'll ever s
