You know that ain't fair

My lil' partner in the A with a thirty, he won't see parole 'til he 30

He got caught with a nine and a nine but they gave him same time as a birdie

Wasn't even habitual but his lawyer was a court-appointed so they did him dirty

Bro done caught a basketball jersey just tryna ball hard, James Worthy

My other lil' brother got ten

He's a first time offender, juggin' off bank clerks

But he wasn't gon' go in the bank first

He was 'posed to just drive if the plan worked

Difference is, that's fed time

Eighty-five percent to ninety-nine

He ain't even have a loaded gun

They still said, "Fuck that," and sent him down

Fuck the police, can kill the innocent and still walk away scot-free

How could I ever ever trust the justice system when the system meant to kill me?

When the rapists and terrorists still free

And the men who do millions in Ponzi schemes

Walk with money, they call it insanity

But for me, they'll send in a SWAT team

Now you know that ain't fair

You know that ain't fair, you know that ain't fair

You know that ain't fair

You know that ain't fair

You know that ain't fair, you know that ain't fair

You know that ain't fair, you know that ain't fair, you know that ain't fair

You know that ain't fair

You know that ain't fair, you know that ain't fair
