Patience

Saul Williams

Patience over anxiety
It's hard to remember the
Love that sprang from simplicity
Is harder to maintain

It's getting harder to maintain

Love has conqured over
It's hard to remember the
Fear that conqured over
Is harder to maintain

It's getting harder to maintain

The blood boils over
And courses through you
When love takes over
There's nothing to do

Patience over anxiety
It's hard to remember the
Love that sprang from simplicity
Is harder to maintain

It's getting harder to maintain
