

Colour Blind

SAULT

Colour blind
I can see it in your eyes tonight
There's no difference between you and I
Everything will be alright
If you change
I'll get through to you another way
I may not find the perfect words to say
Everything will be alright

Don't be afraid
I won't leave again
Butterfly
You're the sweetest thing I'll ever know
If I take you everywhere I go
Everything will be alright

Don't be afraid
I won't leave again
Plans that you made
Won't let you down again
Take your time
Don't let those thoughts get in your mind
It doesn't matter if your wrong or right
There's no rules when you're in love
In love
