SAULT

Don't need a hero anyway
Although I really like your style
Don't need a hero anyway
Even though you changed my mind
'Cause I needed you yesterday
But again you weren't around

Don't need a hero anyway
Although I really like your style
Don't need a hero anyway
Even though you changed my mind
'Cause I needed you yesterday
But again you weren't around
Don't need a hero anyway
Even though you changed my mind

Free, don't give up for no one
'Cause God's love is free
The silver lining fall
What will be will be
And we may feel alone
Free

Don't need a hero anyway
Although I really like your style
Don't need a hero anyway
Even though you changed my mind
'Cause I needed you yesterday
But again you weren't around
'Cause I needed you yesterday
But again you weren't around

Don't need an egomaniac
In my life to drive me wild
I had to run away from that, don't mess with Heaven's child
Now you see that I'm on my way
Wanna drag me down oh why?
Don't need an ego anyway
Don't need an ego anyway

I know you ain't come this far, just to go back where you came from

Free, don't give up for no one
'Cause God's love is free
The silver lining fall
What will be will be
And we may feel alone
Free

Free, don't give up for no one
'Cause God's love is free
The silver lining fall
What will be will be
And we may feel alone
You're free

I know, I can make it on my own

When I'm low
I try hard to keep you close
I know I can make it on my own
When I'm low
I try hard to keep you close

I know
I can make it on my own
When I'm low
I try hard to keep you close
I know
I can make it on my own
When I'm low
I try hard to keep you close

I know, I can make it on my own
When I'm low
I try hard to keep you close
