SAULT

Monsters again  
Everyone's scared to look 'cause they fear  
The monster under the bed  
Livin' in the closet and under the stairs  
There are monsters, are monsters  
Monsters, there are monsters

Miss what's under the river Nile?  
Mr. Liar got a secret now  
Take off your suit, you're just a sorry clown  
And why are all my people disappearing now?  
Will you tell the world who is Africa?  
And everything you say is always aimed at killing her  
Pray, pray, pray, indigo child  
Just so you know, they call us monsters 'cause they're in denial

Monsters again  
Everyone's scared to look 'cause they fear  
The monster under the bed  
Livin' in the closet and under the stairs  
There are monsters, are monsters  
Monsters, there are monsters

'Cause I'm a monster  
Yeah, yeah, yeah

Look at our hair, look how we wear our crowns  
God's speaking to our inner child  
Get together, aim focus now  
Elevate the intuition now  
Baby, your mind is worth more than gold  
Wipe your tears so they can see the glow  
Pray, pray, pray, indigo child  
Pray, pray, pray, indigo child  
Look at our hair, look how we wear our crowns  
God's speaking to our inner child  
Get together, aim focus now  
Elevate the intuition now  
Baby, your mind is worth more than gold  
Wipe your tears so they can see the glow  
Pray, pray, pray, indigo child  
Just so you know, they call us monsters 'cause they're in denial

Monsters again  
Everyone's scared to look 'cause they fear  
The monster under the bed  
Livin' in the closet and under the stairs  
There are monsters, are monsters  
Monsters, there are monsters

Monsters again
